

MU School of Health Professions Alumni

Giving back through Mentoring

A **mentor** is a competent teacher, a trusted advisor and a good role model. As an SHP alumni mentor, you will have the opportunity to share your professional expertise, experience and wisdom with a current SHP student who is seeking career guidance, new skills and competencies, and professional insights.

Responsibilities of a mentor:

- ✚ Learn your student's needs and aspirations through attentive listening.
- ✚ Work with your student to establish and meet goals for the year.
- ✚ Challenge your student to high academic standards.
- ✚ Offer your student insight into the professional workplace.
- ✚ Advise your student about possible career paths.
- ✚ Foster your student's leadership skills through honest feedback and dialogue.

Best of all, mentorship is an opportunity to:

- Meet today's students and other SHP alumni
- Give back in gratitude for all who've helped mentor you
- Inspire a student to follow his/her dreams
- Invest in future health care leaders
